Thank you Job!
can't wait to make your bestfriend
the most handsomeboy in the block on Monday.
Have a lovely day amigo!

Process

- TTY-Prompt Gem , Colorize, artii and Lolize
- While loop for getting input from user until we get the wrong input
- 4 Different Classes to keep everything nice and easy to find if an error accrue .
- Add-on class for future expansion
- Rspec for testing
- 2 ERROR Handling with weight and age input

Challenges

- .Time management
- .Not familiar with the gems and def
- .Big Idea with not enough experience.
- .TDD and error handing

Good Parts

The app finally working , presentation being able to share the experience with everyone in class

Understanding more about Ruby and GEMS

Help and support from the all of the class mates and educators
